Proposal: Restrict boating access times at Nimrod Lloyd Millwood WMA Special Regulatory Area.

Allow non-motorized boat access to all designated water trails.

Restrict waterfowl hunting to Tuesday, Thursday, Saturday, Sunday, and the last day of duck season east of Hwy 7 at Petit Jean River WMA and create a formal exception to Common Restriction A on Keeland Lake, Club House Pond, Lily Pad Pond, Kingfisher Lake, and Petit Jean River.

Clarify legality of waterfowl hunting on Lake Catherine and Lake Hamilton.

Open waterfowl season on Camp Robinson SUA.

Restrict waterfowl hunting on Camp Robinson WMA to Tuesday, Thursday, Saturday, and Sunday.

Create a formal exception to Common Restriction A on Lake Cargile on EGPRWMA.

Justification: Hunters are staying in the Lloyd Millwood GTR and holding spots for days at a time. Current code (24.01) says they must be off water-inundated areas by 1pm but it does not say when they can be back on the water leading to people going right back out to save spots.

Current restrictions exist on waterways throughout Henry Gray Hurricane Lake WMA during and around duck season that restricts non-motorized boat use on the designated water trails. Relaxing restrictions to all day during the regular ducks season splits, all day the Monday before the first segment of regular duck season until the first day of the first segment of regular duck season, and allow the use of non-motorized boats from 1pm until 6:30pm during regular duck season will allow opportunity for other users to access the water trails. Adding an exception for non-motorized boat access to designated water trails will allow use of all water trails throughout the state and not lead to confusion on whether or not they are allowed on water trails at any WMAs with water trails.

Other WMAs within the Arkansas River Valley have switched to a Tuesday, Thursday, Saturday, Sunday, and the last day of duck season hunting schedule. Use of Petit Jean River WMA is currently high and with other nearby WMAs adopting this new schedule will shift more pressure to Petit Jean River WMA. Adopting this schedule east of Hwy 7 will allow more bird use within the moist soil units and GTRs by allowing the area to rest Monday, Wednesday, and Friday by reducing hunting pressure. This still allows opportunity for hunters all days of the week on the west side of Hwy 7, where the bottomland hardwood forests are underutilized. While waterfowl hunting is allowed on Keeland Lake, Club House Pond, Lily Pad Pond, Kingfisher Lake, and the Petit Jean River, they are primarily utilized by the public as a fishery, and as such, no access restrictions are currently applied. A formal exception to Common Restriction A would clarify that access restrictions do not apply.

Add clarification regarding Lake Catherine and Hamilton to a revised C1.12 and delete 5.13.

There is no reason for waterfowl season to be closed on Camp Robinson SUA. Waterfowl hunting is allowed on adjacent portions of Lake Conway. While there is not a lot of

waterfowl opportunity on CRSUA, that is not a legitimate reason to restrict waterfowl season on the area.

All waterfowl hunting on Camp Robinson WMA is connected to Bell Slough WMA (BSWMA) due to the GTR crossing boundaries and boat access only coming from BSWMA. In 2023, a BSWMA regulation went into effect that restricted waterfowl hunting to Tuesday, Thursday, Saturday, and Sunday. It was an oversight that Camp Robinson WMA was not included in this regulation proposal. This proposal would fix that mistake and take away a loophole that allows hunters to hunt what is essentially the same area that is intended to be closed on Monday, Wednesday and Friday.

Lake Cargile is a small lake located within Ed Gordon Point Remove Wildlife Management Area. While waterfowl hunting is allowed on the lake, it is primarily used by the public as a fishery, and as such, no access restrictions are currently applied. A formal exception to Common Restriction A would clarify that access restrictions do not apply to Lake Cargile.

Codes affected: 5.13, C1.12
