2025 Waterfowl Regulation Proposals

Proposal: *2025-26 Special Early Teal Season Dates*

Justification: Blue-winged teal populations dropped to 4.599 million in the 2024 Waterfowl Breeding Population Survey. When the population falls below 4.7 million, federal frameworks call for a reduction in the number of early teal season days from the current 16-day season to a 9-day season. To maximize opportunity, staff propose early teal season to occur the third Saturday in September for 9 days.

Code affected: *B1.02*

Proposal: *2025-26 Pintail Daily Bag Limit*

Justification: There were no changes in the federal framework regarding regular waterfowl season dates and limits (except northern pintail). The federal frameworks allow an increase in the daily bag limit for northern pintails following a new interim harvest strategy adopted by all four Flyways and the U.S. Fish and Wildlife Service. This harvest strategy will be implemented until there has been three seasons with a three bird bag and allow two years to analyze data and conduct a full evaluation of the strategy.

Code affected: *B1.08*

FINANCIAL / ECONOMIC IMPACT STATEMENT
