B. Review and Approval Process.

1. For initial licensure applications, upon receipt of a complete application for items required under Section (5)(A) of this Rule, the Commissioner shall review the application and:

(A) approve the application and issue the applicant a PBM license; or

(B) notify the applicant in writing that the application is incomplete and that additional information is needed to complete the review of the application (if the missing or

necessary information is not received within thirty (30) days from the date of the notification, the Commissioner shall deny the application unless good cause is shown); or

(C) deny the application. If the Commissioner determines that the PBM applicant does not meet the requirements for licensure, the Commissioner shall:

(i) provide written notice to the PBM applicant that the application has been denied stating or explaining the basis of the denial; and

(ii) advise the PBM applicant that a request for a hearing may be filed with the Commissioner in accordance with Ark. Code Ann. § 23-61-303.

2. Renewal. A PBM license shall be renewed annually. A renewal application shall require proof that the PBM has in place the surety bond financial responsibility requirement in Section 5(A)(2) of this Rule, as well as require the PBM to submit to the Department any changes made to the items in Section 5(A) of this Rule from the date of its most recent licensure. A renewal application shall be deemed approved by the Commissioner after 45 days from the date of the receipt of the complete renewal application by the Department, unless denied or disapproved by the Commissioner during that time period. For disapprovals or denials of a renewal licensure by the Commissioner, the Commissioner shall:

(A) provide written notice to the renewal PBM applicant that the licensure renewal was denied stating or explaining the basis of the denial; and

(B) advise the PBM renewal applicant that a request for a hearing may be filed with the Commissioner in accordance with Ark. Code Ann. § 23-61-303.

3. Standards of Review. The Commissioner shall deny an initial application for licensure or deny renewal by a PBM for the following reasons:

(A) the PBM operates, or proposes to operate, in a financially hazardous condition relative to its financial condition and the services it administers, or proposes to administer for Healthcare insurers in this State; or

(B) the PBM has been determined by the Commissioner to be in violation or non-compliance with the requirements in this Rule or Arkansas state law; or

(C) the PBM has failed to timely submit information to complete review of the application under Section 5(B)(1)(b) or has failed to submit a renewal application and information under Section 5(B)(2).

4. A cash surety bond under 5(A)(2) of this Rule shall be maintained at all times by the PBM during its licensure with the Department. The Commissioner may however reduce the amount of the bond requirement in Section 5(A)(2) if the amount required is unreasonable relative to the size of the PBM's business operations in this State and would cause a significant financial hardship;

C. Incorporation by Reference. There is hereby attached to this Rule initial and renewal application forms for initial PBM licensing and renewals which are hereby incorporated by Reference into this Rule: (1) Form PBM-L1 and (2) Form PBM-R1.

The Commissioner may modify these forms pursuant to a Bulletin, to the extent such modifications are consistent with the provisions of this Rule, or, are necessary to comply with the PBM Licensure Act, as amended. For changes or modifications to Form PBM-L1 or Form PBM-R1, the Commissioner may modify or change the application forms, via a bulletin which is addressed or noticed to the PBMs and health insurers or HMOs six (6) months prior to any effective changes to the forms. The Commissioner shall accept and review comment(s) from the industry, or affected parties, related to the proposed changes between the date of the bulletin and proposed changes;

D. Confidentiality. The information submitted by a PBM under Section 5(A)(6) through (16) of this Rule shall be considered confidential under Ark. Code Ann. §§ 23-61-103 and 23-61-207 and, in addition, shall be considered proprietary, as information which would provide information that would provide an advantage to a competitor, under the Freedom of Information Act of 1967, in Ark. Code Ann. § 25-19-105(b)(9). A PBM shall file with the Department, at the time of its licensure filing, a redacted, public version of its application, excepting any proprietary information, required to be submitted to the Department under this Rule;

Section 6. Contract Review

A. Contract Review.

1. Prohibited Contract Language. No contract entered into by a PBM and a Pharmacist which relates to participation or administration of a Pharmacy benefits plan or program of a Health benefit plan shall contain language in violation of Ark. Code Ann. §§ 23-92-506(c) [payment retroactivity], 23-92-507 [anti-gag clauses], 4-88-1004 [anti-clawback] and 17-92-507 [maximum allowable cost].

2. Waiver Prohibited. The provisions in, 23-92-506(c) [payment retroactivity], 23-92-507 [anti-gag clauses], 4-88-1004 [anti-clawback] and 17-92-507 [maximum allowable cost] may not be waived by contract. The provisions in Ark. Code Ann. §§ 23-92-506(b) [fees and standards] may be modified by contract if the fees or standards are permitted by the Commissioner under Section (6)(3) of this Rule.

3. Review of Contractual Language under Ark. Code Ann. §§ 23-92-506(b)(2) [fees] and 23-92-506(b)(3) [certification standards]. No contract entered into by a PBM and a Pharmacist which relates to participation or administration of a Pharmacy benefits plan or program of a Health benefit plan shall contain language in violation of Ark. Code Ann. §§ 23-92-506(b)(2) or 23-92-506(b)(3) unless such provisions have been reviewed and approved by the Commissioner pursuant to this Section.

(A) A PBM may submit to the Commissioner for review and approval contractual language permitting fees or certification standards, otherwise prohibited under Ark. Code Ann. §§ 23-92-506(b)(2) and 23-92-506(b)(3), by providing a written justification or

explanation to the Commissioner for the fee or standard. For approval of such provisions, it shall be the obligation of the PBM to provide objective evidence, rather than conclusory statements, that the fee or standard is necessary to: (1) control costs of the PBM or Health benefit plan; or (2) maintain quality measures of the PBM or Health benefit plan.

(B) Upon receipt of the request for approval and written justification, the Commissioner shall review such provisions and shall provide the PBM with a written response indicating approval or disapproval of such language, or may request more information, within 45 days.. A disapproval shall explain the basis of the disapproval. The PBM may supplement its written justification during the period of review by the Department. If the Commissioner disapproves the provision(s), the PBM may request a hearing with the Commissioner in accordance with Ark. Code Ann. § 23-61-303. The administrative hearing under this Section shall be restricted as to whether the fee or standard meets the requirements of Section 6(A)(3)(A) of this Rule.

B. Marketing and Advertising.

Pursuant to Ark. Code Ann. § 23-92-506(b)(1), a PBM shall not cause or knowingly permit the use of any advertisement, promotion, solicitation, representation, proposal, or offer that is untrue, deceptive, or misleading. The Commissioner shall enforce this requirement as he or she similarly enforces the requirements of Ark. Code Ann. §§ 23-66-206(6) and (7) including applying the applicable penalties, for violations, under Ark. Code Ann. § 23-66-210The Commissioner shall not pre-review or pre-approve a PBM's marketing documents or advertising statements prior to use by the PBM in this State market, however, the Commissioner shall instead review and enforce this subdivision of this Section on a per complaint basis, and, therefore, it shall be the responsibility of the PBM at all times to ensure that its marketing and advertising is truthful and not misleading.

Section 7. Pharmacy Network Adequacy

A. Pharmacy Network Adequacy.

1. In order to effectively implement Ark. Code Ann. § 23-92-505, because a PBM is actually administrating a Health benefit plan for a Healthcare insurer, as contracted by the PBM with a Healthcare insurer, the Commissioner hereby maintains that a pharmacy network is adequate if the pharmacy network meets the network adequacy requirements under Arkansas Insurance Department Rule 106 with an average distance between consumers and nearest pharmacy at 15 miles for each Medicare classified non-rural county and 18 miles for each rural county. Issuers with no enrollees in any county (new issuers entering the state OR existing issuers expanding service to new counties) may use 0.05% of the non-elderly (under 65 years) county population as a base of membership for providing the distance access and coverage reports. A Healthcare insurer shall therefore file and report its pharmacy network subject to other

Rule 106 requirements but with this average distance specification. For purposes of this reporting, pursuant to Ark. Code Ann. § 23-92-505(1)(B), mail-order pharmacy shall not be included in the calculations determining network adequacy for pharmacists.

B. Compensation.

1. Pursuant to Ark. Code Ann. § 23-92-506(a)(1), the Commissioner may, in his or her discretion, review a PBM's reimbursement program or compensation, for a Pharmacy benefit plan of a Healthcare insurer, to determine if the reimbursement is fair and reasonable to provide an adequate Pharmacy benefits network for a Health benefit plan. For Healthcare insurers using PBMs for administration of pharmacy benefits of its Health benefit plans, a Healthcare insurer shall reasonably ensure that the reimbursement or compensation of Pharmacists does not adversely impact participation of Pharmacists in its Health benefit plans.

2. The Commissioner shall not review reimbursement complaints or concerns under this Section on a case by case basis for a pharmacist or pharmacy. The Commissioner's discretion to review pharmacy compensation programs pursuant to this Section, shall be guided by the following factors:

(a) whether the compensation or reimbursement program adversely impacts pharmacy participation in a Health benefit plan; and

(b) the extent to which the compensation or reimbursement program has an impact on pharmacy participation in Health benefit plans on a state-wide basis, or significant geographical area of the State.

3. (A) For Healthcare insurers using PBMs for administration of pharmacy benefits of its Health benefit plans, the Healthcare insurers shall for purposes of determination of pharmacy network adequacy deficiency:

(1) develop a mechanism or system with its PBM to track or monitor, denials under Ark. Code Ann. § 17-92-507(e) including details such as date and time of denial, RXCUI drug code, NPI, address of pharmacy, TAX-ID of PBM involved, and reason code of declination;

(2) develop a mechanism or system with its PBM to track or monitor, on an annual basis, the number of pharmacists which terminated their network participation with the Healthcare insurer or PBM network due to reduction in compensation; and

(3) report such information to the Arkansas Insurance Department's Regulatory Healthlink Division on an annual basis, as part of the Healthcare insurer's network adequacy filings in a format prescribed by the Division.

(B) The reporting systems shall be built and tested in 2018 and 2019, and begin collection of data from January 1, 2020. The first year of reporting this data will be on and after March 1, 2021, or upon the 2021 date in which network adequacy reports are due for Healthcare insurers, whichever is later.

(C). The pharmacy network data from (B)(3)(A) reported in 2021 would be used to determine the adverse change in the pharmacy networks operational during Plan Year 2020 and filed with the Department for certification review in 2019.

(D). The PBM shall work with the Healthcare insurer to enable the latter to develop the mechanism or system mentioned in (1) and (2) above within the timelines specified.

4. For purposes of this Section, the Commissioner may consider a pharmacist's declination to provide covered prescription drugs under Ark. Code Ann. §17-92-507(e) as a circumstance negatively impacting participation because, in this instance, the Health benefit plan is unable to provide its covered member with a covered prescription drug through one of its in-network pharmacists or pharmacies. Additionally, for generic, prescription drugs subject to MAC requirements, the Commissioner may consider the extent or magnitude in which a pharmacist or a pharmacy's reimbursement pricing has been adjusted, on the average on a quarterly basis, inventory costs under Ark. Code Ann. § 17-92-507(c)(4)(C)(iii), as a circumstance negatively impacting participation, because, in these instances, it is reasonable to conclude that a pharmacist or pharmacy's decision to continue in participation, at a negative cost or negative reimbursement, or pattern, adversely impacts a pharmacist's or pharmacy's prospective participation with the Health benefit plan.

5. The provisions in Section 7(B)(2) of this rule are guidelines for the Commissioner's discretion to review pharmacy compensation or reimbursement programs under network adequacy requirements, and therefore, the existence of any of the circumstances in that Section, do not automatically mandate or require the Commissioner to review pharmacy compensation or reimbursement programs.

6. The Arkansas Insurance Department's Regulatory Healthlink Division shall develop an evidence based system to gather the information required in Section 7(B)(2) of this Rule.

a) The Regulatory Health Link Division shall be furnished with the principal contact person for both the PBM and the Healthcare insurer required for implementing Section 7(B)(2) of this Rule. The Regulatory Health Link Division should be informed of changes in principal contact person within one (1) week of the change.

b) The Healthcare insurer shall furnish all data in a format finalized by the Regulatory Health Link Division to enable the reliable implementation of the system. Data shall be submitted by the due dates set by the Regulatory Health Link Division. Data quality issues raised by the Regulatory Health Link Division shall be resolved expeditiously by the Healthcare insurer. The PBM shall work with the Healthcare insurer to enable the latter to meet its data reporting requirements.

c) All Healthcare providers, individuals or facilities, associated with a plan will be considered one network belonging to the plan. If another plan has a different set of providers it will be considered a separate network otherwise it will be considered as the same network. Relevant information of all unique networks shall be furnished to the Division, including but not limited to service areas associated with plans, networks associated with plans and provider details.

d) The Regulatory Health Link Division shall use a system to measure average distance to pharmacies using US Census Population blocks to validate Network Adequacy sufficiency at the county level.

5. In the event the Commissioner decides to review compensation or reimbursement under this Section, he or she shall be restricted to reviewing the reimbursement program for purposes of compliance with Rule 106 network adequacy standards. In his or her review of compensation under this Section, the Commissioner may review or examine either the Healthcare insurer or PBM, or both, under the examination standards or procedures under Ark. Code Ann. §§ 23-61-201, et.seq. If after review or examination, the Commissioner determines a network adequacy violation exists due to non-participation from compensation or reimbursement reductions, it shall be the responsibility of the Healthcare insurer, using a PBM for administration of pharmacy benefits of its Health benefit plans, to take corrective actions to avoid any penalties under Section 7 of Rule 106.

C. Compensation or Reimbursement Requirements Regardless of Network Adequacy.

1. Pursuant to Ark. Code Ann. § 23-92-506(b)(4), in no event, however shall a PBM reimburse a pharmacy or pharmacist in the state in an amount less than the amount that the pharmacy benefits manager reimburses a pharmacy benefits manager affiliate for providing the same pharmacist services. The amount shall be calculated on a per-unit basis using the same generic product identifier or generic code number.

Section 8. Examinations

A. Examination of PBMs and Healthcare insurers.

1. Pursuant to Ark. Code Ann. § 23-92-508, the Commissioner may examine the affairs of a PBM for compliance with the requirements of the PBM Licensure Act or requirements of this Rule. In addition, the Commissioner may examine the affairs of a Healthcare insurer subject to the requirements of Section 7 of this Rule.

2. Any examination permitted under this Section shall follow the examination procedures and requirements applicable to Healthcare insurers under Ark. Code Ann. §§ 23-61-201, including but not limited to the confidentiality provisions under Ark. Code Ann. § 23-61-207.

3. A PBM shall not be regularly examined under the same time periods of insurers as required under Ark. Code Ann. § 23-61-201(a)(2), however, the Commissioner may examine the PBM or Healthcare insurer, pursuant to this Section, at any time, in which he or she believes it reasonably necessary to ensure compliance with the PBM Licensure Act or provisions of this Rule.

Section 9. Reporting Requirements

A. Maximum Allowable Cost Reporting.

1. The following provisions in this Section shall apply to PBMs subject to Ark. Code Ann. § 17-92-507 (hereafter, the “Maximum allowable cost law” or “MAC law”) and who are administering pharmacy benefits for a Health benefit plan of a Healthcare insurer.

2. To reasonably ensure compliance with the Maximum allowable cost law, PBMs, subject to Section 9(A)(1) of this Rule, shall develop a record keeping system which shall track, monitor and record the following information, to be aggregated on a statistical quarterly basis, for the purpose of providing information to the Department, upon request by the Department:

(a) the number of challenges or appeals the PBM received under the MAC law;

(b) the outcomes of the challenge or appeal, whether denied or upheld by the PBM;

(c) the number of times a challenging pharmacy obtained the pricing information in Ark. Code Ann. § 17-92-507(c)(4)(C)(ii) which allowed it to acquire the drug from a national or regional pharmaceutical wholesaler in stock at a price below the maximum allowable cost list;

(d) the total amount of reimbursement re-adjustment which occurred that quarter under Ark. Code Ann. § 17-92-507(c)(4)(C)(iii) and the average time period taken for such reimbursement adjustments; and

(e) The report shall report aggregate numbers on a quarterly basis, and, if submitted upon the request by the Department, shall be considered a request for information under Ark. Code Ann. §§ 23-61-103(d) and 23-61-207, and shall be considered confidential.

3. The requirements of this Section shall first apply for appeals or challenges occurring during the first quarter of 2019.

B. Pharmacy Provider Complaints Related to Maximum Allowable Cost Law Compliance under Ark. Code Ann. § 17-92-507.

1. The PBM shall designate the name, address, phone number, including an electronic mail contact, of the organization which shall be responsible for responding to the Department for complaints the Department has received from pharmacy providers for maximum allowable cost law alleged violations. In responding to the complaint, the PBM shall be subject to Rule 43, Section (11)(A), related to its time period for responding to the complaint.

2. A pharmacy provider or a pharmacy services administrative organization (PSAO) acting on their behalf shall make reasonable efforts to exhaust any internal appeal requirements of the PBM prior to the filing of a complaint with the Department. However, a pharmacy provider shall not be required to exhaust internal appeal requirements of the PBM if a PBM has significantly failed to provide timely communication and timely processing of the appeal, as required under the MAC law, or has failed to abide by its MAC appeal processes as described to the Department in Section 5(10) of this Rule.

3. Pursuant to Ark. Code Ann. 17-92-507(g)(1), a violation of the Maximum Allowable Cost law, shall be considered a prohibited practice under the Arkansas Insurance Department's Trade Practices Act, Ark. Code Ann. 23-66-201 et seq. Therefore, the Department shall review the complaints received under this Section under its trade practices requirements and shall apply penalties, if applicable, under Ark. Code Ann. 23-66-210.

4. AID shall additionally coordinate with the Arkansas Attorney General's Office for referral to that Office of complaint cases which reasonably appear to show a pattern or practice of violations by a PBM.

Code Ann. § 4-88-803(d). To reasonably ensure compliance with this requirement, the Commissioner may seek or request data from either the PBM or Healthcare insurer, or both, under a format developed by the Department, pursuant to a bulletin timely issued to PBMs and Healthcare insurers subject to Section 9(C)(1) of this Rule.

3. The Department shall make reasonable efforts to alternatively ascertain whether the required reporting data under Ark. Code Ann. §§ 4-88-801 is feasible to be gathered under the Arkansas All-payer claims database, or "APCD," under the "Arkansas Healthcare Transparency Initiative Act, codified under Ark. Code Ann. §§ 23-61-901 et seq. PBMs and Healthcare insurers subject to this Section shall assist the Commissioner and APCD to determine whether the reporting information under Ark. Code Ann. § 4-88-803 is reasonably feasible to be gathered technologically and reported to APCD. In the absence of an APCD mechanism to

gather and report this information, PBMs and Healthcare insurers, subject to this Section, shall file written reports in the format as required by the Department under Section 9(C)(2) of this Rule.

4. Pursuant to Ark. Code Ann. § 4-88-803(d)(2), any annual report submitted under that provision or under this Section shall be considered proprietary and confidential under § 23-61-207 and not subject to the Freedom of Information Act of 1967, under § 25-19-101 et seq. 5. The report required under this Section shall be due annually on the date each year in which Healthcare insurers are required to file a request for approval of premium rates in the fully insured market. The report shall provide the pricing and reimbursement information as required under this Section for the preceding plan year.
