3.02.1 Is used to administer an electric shock through the chest wall to the heart;

3.02.2 Has built-in computers within the device to assess the patient’s heart rhythm and judge whether defibrillation is needed;

3.02.3 Has audible or visual prompts, or both, to guide the user through the process;

3.02.4 Has received approval from the United States Food and Drug Administration of its pre-market modification, filed pursuant to 21 U.S.C. 360(k);

3.02.5 Is capable of recognizing the presence or absence of ventricular fibrillation and rapid ventricular tachycardia and is capable of determining without intervention by an operator whether defibrillation should be performed; and

3.02.6 Upon determining if the defibrillation should be performed, the AED

either automatically charges and delivers an electrical impulse to an individual's heart or charges and delivers an electrical impulse at the command of the operator.

- 3.03 “CPR/AED Provider” means ~~A~~a member or employee of a campus who has completed training in CPR in addition to knowledge and understanding of an AED's operation and use under the requirements set forth in this regulation.
- 3.04 “Cardiac arrest” means ~~A~~a condition, often sudden, that is due to abnormal heart rhythms called arrhythmias. It is generally the result of some underlying form of heart disease.

DISCUSSION

Acts 737 and 811 of 2023 amended the Emergency Response Equipment and Training in Arkansas Public Schools Act codified at Ark. Code Ann. §§ 6-18-723 and 6-10-122. As part of the amendment, Act 811 requires that DESE collaborate with the Criminal Justice Institute and the office of the Arkansas Drug Director to ensure opioid overdose rescue kits be located on each campus of each public high school and state-supported institution of higher education. Kits must be clearly visible and labeled with specific language like "Overdose Rescue Kit." Act 811 specifies the location of these kits, who they shall be registered with, in addition to reporting and training requirements pertaining to these kits.

Act 737 requires automated external defibrillators at school-sponsored sporting events for grades 7-12. Act 737 also requires collaboration between the Arkansas Higher Education Board with all public university and community college presidents and chancellors to develop and adopt rules for automated external defibrillators on campuses of institutions of higher education and specifies the requirements for these rules.
