2. Applications for approval of chips and modifications to previously-approved chips must be made, processed, and determined in such manner and using such forms as the Commission may prescribe. Only Casino licensees, or the manufacturer authorized by these licensees to produce the chips, may apply for such approval. Each application must include, in addition to such other items or information as the Commission may require:

The written system must include at a minimum, a detailed, narrative description of the procedures and controls implemented to ensure the integrity and security of the manufacturing process, from design through shipment, including but not limited to those procedures and controls designed specifically to:

(1) Provide for the secure storage or destruction of all pre-production prototypes, samples, production rejects and other nonsalable product.

(2) Provide security over the finished art work, hubs, plates, dies, molds, stamps and other related items which are used in the manufacturing process.

The Commission may retain the sample chips submitted pursuant to this subsection.

4. The Commission and its staff may use the revolving fund at any time without notice, for the purpose of implementing the provisions of this Rule.

4. Any application submitted pursuant to subsection 3 must be signed by the chief executive officer of the applicant and be on a form prescribed by the Commission.

5. Any approval by the Commission for the deletion of such an inscription shall be in writing and be limited to that period of time in which the name of the licensee is limited to one establishment and conditioned so that it may be withdrawn in the future if the Commission determines that the deletion results in confusion with the chips of another establishment or if such inclusion is deemed necessary or beneficial for any regulatory purpose.

6. A copy of any approval or disapproval or other decision by the Commission pursuant to the authority delegated in subsection 3 must be submitted to the members of the Commission within 5 working days thereafter and may be relied on by the applicant if within 20 working days after such submission:

(a) A member of the Commission does not request a review by the entire Commission; or

(b) The Commission does not include the matter on the next available Commission agenda.

6. A licensee shall not knowingly issue, use, permit the use of, or redeem chips issued by another licensee, except as follows:

(b) A licensee may redeem chips issued by another licensee if:

(1) The chips are presented by a patron for redemption at the cashier's cage of the licensee's gaming establishment;

(2) The chips are presented by a patron at a table game, and the licensee redeems the chips with chips of its own, places the redeemed chips in the table's drop box, and separates and properly accounts for the redeemed chips during the count performed pursuant to the licensee's system of internal control submitted pursuant to Rules 6.050 or 6.060; or

7. Chips whose use is restricted to uses other than at table games or other than at specified table games may be redeemed by the issuing licensee at table games or non-specified table games if the chips are presented by a patron, and the licensee redeems the chips with chips issued for use at the game, places the redeemed chips in the table's drop box, and separates and properly accounts for the redeemed chips during the count performed pursuant to the licensee's system of internal control required by Rule 6.

A licensee that permanently removes from use or replaces approved chips at its gaming establishment, or that ceases operating its gaming establishment whether because of closure or sale of the establishment or any other reason, must prepare a plan for redeeming discontinued chips that remain outstanding at the time of discontinuance. The licensee must submit the plan in writing to the Commission not later than 30 days before the proposed removal, replacement, sale, or closure, unless the closure or other cause for discontinuance of the chips cannot reasonably be anticipated, in which event the licensee must submit the plan as soon as reasonably practicable. The Commission may approve the plan or require reasonable modifications as a condition of approval. Upon approval of the plan, the licensee shall implement the plan as approved.

2. In addition to such other reasonable provisions as the Commission may approve or require, the plan must provide for:

(a) Redemption of outstanding, discontinued chips in accordance with this Rule for at least 120 days after the removal or replacement of the chips or for at least 120 days after operations cease, as the case may be, or for such longer or shorter period as the Commission may for good cause approve or require;

(b) Redemption of the chips at the premises of the gaming establishment or at such other location as the Commission may approve;
