Arkansas Code Annotated § 27-16-1104(3) requires that a driver's license or identification card include, at a minimum, identifying information of the holder concerning the person's full legal name, date of birth, address of residence, signature, and gender. Identifying information contained within a driver's license or identification card is utilized by law enforcement, for voting, for travel purposes, for conducting financial transactions, and obtaining insurance and health care services, among other uses.

The Office of Driver Services previously permitted the holder of a driver's license or identification to choose to indicate "M" (male) or "F" (female) on the driver's license or identification card although the person's birth certificate, passport, or Homeland Security document provides differing gender information. The Office also permitted driver's licenses and identification cards to state gender information as "X" instead of "M" (male) or "F" (female). The Secretary of DFA rescinded this policy on March 12, 2024. The purpose of this rule to ensure that individuals and organizations that rely upon identifying information contained within a driver's license or identification card are provided with the most accurate and complete gender information that reflects the person's gender information stated within the holder's birth certificate, passport, or Homeland Security document.

EXECUTIVE SUMMARY

**PROPOSED PERMANENT RULE REGARDING GENDER INFORMATION REQUIRED TO BE
DISPLAYED ON AN ARKANSAS DRIVER'S LICENSE OR STATE IDENTIFICATION CARD**

The Department of Finance and Administration is requesting the Governor's review of the proposed permanent rule regarding gender information required to be displayed on an Arkansas Driver's license or state identification card. The Arkansas Legislative Council and its Executive Subcommittee on March 15, 2024 approved an emergency rule pertaining to the same subject matter. The enclosed permanent rule is identical to the emergency rule.

1. Background

Under Ark. Code Ann. § 27-16-1104(3), each driver's license or identification card issued by DFA shall contain information regarding the person's gender. Pursuant to the authority vested in the Secretary under Ark. Code Ann. §§ 25-8-102(a) and 27-16-1108, the Secretary, with the approval of the Governor, will administer the requirements of Ark. Code Ann. § 27-16-1104(3) consistent with this proposed permanent rule by requiring each driver's license and identification card issued by the Office of Driver Services of the Department of Finance and Administration (Office) to state the person's gender as "M" (male) or "F" (female) consistent with information contained on the person's birth certificate, passport, or identification document issued by the U.S. Department of Homeland Security (DHS) and no longer permit "X" to be stated on the person's driver's license.

2. Key Points

The proposed permanent rule:

- Requires that a driver's license or identification card issued or renewed by the Office contain the same gender information of "M" (male) or "F" (female) as stated on the person's birth certificate, passport, or DHS document;
- Prohibits the Office from issuing or renewing a driver's license or identification card that contains gender information that is different than the person's gender information stated on the person's birth certificate, passport, or DHS document or states "X" or "blank" as the person's gender information;
- Authorizes the Office to amend the gender information contained on a person's driver's license or identification card upon presentation of an original or certified copy of an amended birth certificate issued by the Arkansas Department of Health or the vital records office of another state or governmental agency;

- Authorizes the Office to change the “X” gender information contained on a previously-issued Arkansas driver’s license or identification card based upon the birth certificate, passport, or DHS document records kept by the Office; and
- Requires that an applicant for a driver’s license or identification card provide gender information to the Office as either “M” (male) or “F” (female) in circumstances where the applicant’s birth certificate, passport, or DHS document do not contain “M” (male) or “F” (female) gender information.

3. *Discussion*

Arkansas law requires that a driver’s license or identification card include, at a minimum, identifying information of the holder concerning the person’s full legal name, date of birth, address of residence, signature, and gender. Identifying information contained within a driver’s license or identification card is utilized by law enforcement, for voting, for travel purposes, for conducting financial transactions, and obtaining insurance and health care services, among other uses.

The Office previously permitted the holder of a driver’s license or identification to choose to indicate “M” (male) or “F” (female) on the driver’s license or identification card although the person’s birth certificate, passport, or DHS document provides differing gender information. The Office also permitted driver’s licenses and identification cards to state gender information as “X” instead of “M” (male) or “F” (female). On March 12, 2024, the Secretary of DFA rescinded this policy. The purpose of this rule to ensure that individuals and organizations that rely upon identifying information contained within a driver’s license or identification card are provided with the most accurate and complete gender information that reflects the person’s gender information stated within the holder’s birth certificate, passport, or DHS document.

4. *Recommendation*

The Department of Finance and Administration recommends the proposed permanent rule be approved.
