Failure to submit the completed survey or failure to submit a written explanation of a reporting period of less than six (6) months within the prescribed period, except as expressly extended by the State Medicaid agency, may result in the suspension of reimbursement until DMS receives this information.

Survey information requested includes direct and indirect/overhead costs, revenues and client mileage information associated with and applicable to the EIDT or ADDT Transportation Program. No other program costs, revenues or mileage information is to be included on the survey. If the provider provides transportation services for programs other than EIDT or ADDT programs, please remove the other program costs, revenues and mileage information before completing the survey and submit a narrative describing how these other transportation program amounts were calculated and removed. All cost and revenue amounts are to be reported using the accrual method of accounting and will be reported in whole dollar amounts, no cents.

Providers must also submit with the survey a written general description of what costs are included with indirect/overhead costs and how these costs were identified, calculated and allocated to the EIDT or ADDT transportation program.

Providers are required to maintain adequate financial records, mileage data and rider data for proper documentation and support of the cost and statistical information reported on the annual survey. These records must be retained for a period of five (5) years after submission of the survey. The surveys, supporting documentation and provider narratives are subject to on-site review and inspection by DHS/DMS personnel.

EIDT and ADDT providers may order copies of Form DMS-632 on the Medicaid Form Request. Requests may be forwarded to the DHS or designated Fiscal Agent's Provider Assistance Center. View or print the DHS or designated Fiscal Agent's contact information.

290.000 EIDT/ADDT BILLING PROCEDURES

291.000 Introduction to Billing

7-1-20

EIDT and ADDT transportation providers use the CMS-1500 claim form to bill the Arkansas Medicaid Program on paper for services provided to eligible Medicaid beneficiaries. Each claim should contain charges for only one (1) beneficiary.

Section III of this manual contains information about available options for electronic claim submission.

292.000 CMS-1500 Billing Procedures

292.100 EIDT/ADDT Procedure Codes

7-1-18

Early Intervention Day Treatment (EIDT) providers and Adult Developmental Day Treatment (ADDT) providers may choose to provide transportation services for their clients as a fee-for-

service provider for transportation to and from an EIDT or ADDT facility only. EIDT or ADDT transportation cannot be claimed for transporting beneficiaries to and from other medical providers.

The procedure code **A0120** must be used when billing the Medicaid Program for EIDT or ADDT transportation services. The Medicaid Program reimburses for "loaded miles" only, e.g., from the point of pickup to the EIDT or ADDT facility and from the EIDT or ADDT facility to the point of delivery. The route must be planned to minimize each beneficiary's time in route (i.e., the facility must pick up the beneficiary who lives farthest away first and drop him or her off last). One unit equals one mile. The overall allowable one-way mileage for each pickup and delivery trip should be totaled and rounded to a whole mile. Mileage will be rounded up if 0.5 or greater and rounded down if 0.4 or less.

292,200 National Place of Service Code
