I. PUBLIC INVOLVEMENT IN DEVELOPMENT OF THE PRE-EXPENDITURE REPORT

Social Services Block Grant legislation enables states to claim limited federal funds to provide social services for individuals and families. The services are designed to assist individuals or families to become less dependent on others for financial support or personal care; to protect children and adults from neglect, abuse, or exploitation and to provide family maintenance; to avoid unnecessary or premature institutionalization; and to gain appropriate placement if institutionalization is necessary.

Each state is responsible for determining the social services most appropriate for its citizens. In Arkansas, citizens are involved in the planning process and have an opportunity to respond to planning decisions.

Arkansas uses the Pre-expenditure Report to inform the State's citizens of its plans for implementing the Social Services Block Grant program and to meet the Social Services Block Grant pre-expenditure reporting requirements. Arkansas posts the Pre-expenditure Report at the following website, <http://www.arkansas.gov/dhs/NewDHS/DHSwork.html>, which is available to the public. Arkansas considers any feedback received from the public, including service recipients, service providers, and other interested citizens, throughout the program year and in its preparation of updates that are necessary to reflect substantial changes which affect the overall intent of the Pre-expenditure Report. All updates are made available to the public at the above website as well.

For an update to the Pre-expenditure Report, in accordance with DHS Policy 1052, DHS submits the proposed update to Department of Human Services Executive Staff and the Department of Human Services Office of Policy and Legal Services for review and comment. Upon their approval, DHS proceeds to initiate the public review and comment period by publishing the short Notice of Rule Making in a newspaper of general, statewide circulation. In addition, DHS forwards a longer Notice of Rule Making to the Arkansas Secretary of State for their posting for a 30-day review and comment period on the Secretary of State website. This affords all interested members of the public a 30-day opportunity to submit comments, orally or in writing.

Questions and comments regarding the Pre-expenditure Report are welcomed at any time throughout the program year and should be sent to the Office of Finance and Administration at the address listed below.

Office of Finance and Administration, Slot W401
P.O. Box 1437
Little Rock, AR 72203

Comments pertaining to aspects of the program for which a division or office has responsibility will be forwarded to that division or office for response. Changes made as a result of public comment will be included in an update to the Pre-expenditure Report.

II. ADMINISTRATIVE OPERATIONS OF THE ARKANSAS SSBG PROGRAM

A. Organization of DHS

Arkansas DHS is the State agency designated to administer the State's SSBG program. DHS is a cabinet agency within the executive branch of Arkansas government. The DHS Director reports to the Governor of Arkansas and is responsible for the administration of this unified human service delivery agency. In its delivery of services to the citizens of Arkansas, DHS exemplifies its Mission Statement: **"Together we improve the quality of life of all Arkansans by protecting the vulnerable, fostering independence, and promoting better health."**

DHS is organized into the following divisions and offices:

- DHS Shared Services (SS)
- Division of Aging and Adult Services (DAAS)
- Division of Behavioral Health Services (DBHS)
- Division of Child Care and Early Childhood Education (DCCECE)
- Division of Children and Family Services (DCFS)
- Division of County Operations (DCO)
- Division of Developmental Disabilities Services (DDS)
- Division of Medical Services (DMS)
- Division of Services for the Blind (DSB)
- Division of Community Service and Nonprofit Support (DCSNS)
- Division of Youth Services (DYS)
- Office of Chief Counsel (OCC)

The functions of each division and office involved in the delivery of services funded through SSBG are described below.

Shared Services is comprised of Office of Finance, Office of Procurement, Office of Information, Office of Human Resources, Office of Security & Compliance, Office of Legislative & Intergovernmental, Office of Communications & Community Engagement and Office of Chief Counsel. Office of Finance manages SSBG funding for DHS and is responsible for preparation of the Pre-expenditure Report and Post-expenditure Report. Office of Procurement develops and reviews DHS contracts for social services funded by SSBG and monitors them for administrative compliance and compatibility with the five statutory goals of SSBG.

DAAS is responsible for promoting the health, safety, and independence of older citizens and adults with physical disabilities by advocating, planning, and developing programs to meet their specific needs. DAAS is involved with chore services, adult day care, in-home services, and protective services for adults. Priority services

include transportation, nutrition, and socialization. DAAS has also been charged with the Office of Public Guardian for Adults and the State Long Term Care Ombudsman Program.

DBHS is responsible for:

- developing comprehensive mental health programs at the community and state levels;
- searching for new prevention and treatment programs;
- providing leadership in mental health research and training;
- providing detoxification services;
- providing Drug and Alcohol Safety Educational Programs;
- planning, establishing, maintaining, coordinating and evaluating projects for the development of more effective prevention, intervention and treatment programs/activities to deal with alcohol and other drug abuse;
- administering the Governor's Office portion of the Department of Education Drug-Free Schools and Communities;
- developing and implementing broadly-based programs of alcohol and drug abuse education and prevention, including programs for high-risk youth; and
- providing drug abuse resistance education and replication of successful drug education programs.

DBHS assists several facilities to provide varying types of mental health and substance abuse services, including the Arkansas State Hospital at Little Rock, AR (for intensive care), the Arkansas Health Center at Benton, AR (for comprehensive care), and local private nonprofit organizations (which provide in-patient and out-patient mental health services and drug and alcohol abuse and treatment services).

DCFS is responsible for the delivery and coordination of services for children and families, including foster care, protective services and other child welfare services. DCFS also purchases treatment programs for youth with emotional/behavioral problems. DCFS has the responsibility to inspect, monitor, investigate and make licensing recommendations to the Child Welfare Agency Review Board. The Board licenses all non-exempt child welfare agencies (residential, foster care and adoption). DCFS is a member of the Child Welfare League of America.

DCO has responsibility for the administration of the DHS county offices. DCO determines eligibility for the Medicaid, Temporary Assistance to Needy Families (Transitional Employment Assistance [TEA] and WORK PAYS), and Supplemental Nutrition Assistance Program (SNAP) programs. DCO also provides Commodity Distribution, Community Services (which includes Community Services Block Grant services, Homeless services and Low Income Home Energy Assistance), and Emergency Food.

DDS is charged with development, funding, and licensing of program services for persons of all ages with a developmental disability. This includes the coordination of a continuum of services ranging from case management to residential placement. DDS provides technical assistance and program support functions to all service providers. The Board of Developmental Disabilities Services operates human development centers which offer residential care to persons with developmental disabilities at six locations in the state.

DSB provides services which aid blind and visually impaired persons in attaining self-sufficiency and self-support through training, counseling, and other supportive activities. DSB operates programs focusing on independent living and vocational counseling. In addition, DSB operates the State's blind vending facility program.

DYS provides overall management and administration of juvenile services for adjudicated delinquents and families in need of services and certain categories of non-adjudicated youth. DYS is responsible for funding, oversight and monitoring and for providing technical assistance to the contracted juvenile treatment and specialized treatment centers throughout Arkansas and to a statewide network of community-based programs. DYS also administers the Juvenile Justice and Delinquency Prevention Act formula grant funds for the development and implementation of juvenile justice education, prevention, diversion, treatment and rehabilitative programs. The Arkansas Coalition on Juvenile Justice, appointed by the Governor, provides policy direction and sub-grant approval.

OCC, through its sections of Legal Operations, County Operations, Quality Assurance (Fraud Investigations and Audit), Appeals and Hearings, and Policy, provides legal review and representation, fraud, and internal investigations, audit functions, administrative hearings, and policy development for all of DHS.

The following Arkansas State agencies, which are NOT within DHS, also utilize SSBG funding:

- Arkansas Department of Career Education, Arkansas Rehabilitation Services (ARS)
- Arkansas Spinal Cord Commission (SCC)

B. Non-discrimination Policy

DHS is in compliance with Titles VI and VII of the Civil Rights Act and is operated, is managed, and delivers services without regard to age, religion, disability, political affiliation, veteran status, sex, race, creed, color or national origin. DHS gives assurance that it will comply with the applicable nondiscrimination provisions of the Civil Rights Act of 1964, Sections 503 and 504 of the Rehabilitation Act of 1973, Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990, and the provisions of 45 CFR, Part 92.

C. Certifications

In consideration of and for the purpose of obtaining the federal financial assistance requested through this Pre-expenditure Report, DHS certifies adherence to the following, copies of which can be found in the Appendices.

- Certification Regarding Debarment, Suspension and Other Responsibility Matters
- Certification Regarding Environmental Tobacco Smoke
- Certification Regarding Drug-free Workplace Requirements
- Certification Regarding Lobbying

D. Program Coordination and Utilization

The provision of social services under SSBG is coordinated with other programs providing related human services within the State. It is vital to continually coordinate these programs in order to appropriately utilize social service dollars and service programs to meet the needs of the low income population. Some of the programs with which the provision of social services under SSBG is coordinated include:

1. Coordination with Economic Assistance Programs

Temporary Assistance to Needy Families (Title IV-A): The provision of financial assistance to low income persons is mandated under Title IV-A of the Social Security Act. Social Services are provided for TEA/WORK PAYS recipients through the SSBG program. The TEA/WORK PAYS program includes a work and training program for TEA/WORK PAYS recipients, has an integral part in the provision of supportive services, and requires coordination with SSBG programs.

Supplemental Security Income (SSI): The Social Security Administration determines eligibility and issues payments for the SSI program for the needy, blind, disabled and aged citizens of Arkansas.

2. Coordination with Medical Assistance Programs

Medicaid (Title XIX): Title XIX of the Social Security Act, the federal statutory basis for the Medical Assistance Program, allows the state to provide financial assistance for low income persons to assist them in securing certain necessary medical services. The cost of the medical services provided to social service clients is covered primarily through the Medical Assistance Program and in accordance with the Arkansas Title XIX Medical Assistance Plan which defines those medical services reimbursable under Title XIX. Services which are inherent responsibilities of a Title XIX facility and intrinsic to its purpose must be provided by the facility under its Title XIX program, not from SSBG funds. Any costs of services not reimbursable through other provisions of the Medical program must be paid from the Title XIX vendor payment. Activities or services which meet, duplicate, or substitute for a facility's service requirements under Title XIX may not be paid for under SSBG. The state may receive reimbursement on a case-by-case basis for some medical or remedial services under SSBG if the client is eligible, if the service is not covered in the Title XIX State Plan or by Medicare, and if the service provided is clearly an integral but subordinate part of a discrete social service specifically defined as such in this

Pre-expenditure Report.

3. Coordination with Child Welfare Programs

Child Welfare Programs: Both federal and state law mandate a child welfare service delivery system directed at safety and child protection, preserving and strengthening family life, providing permanency for children who cannot remain or be reunited with their families, and support services for other youth until they reach the age of majority. Title IV-E and Title IV-B, parts I and II, fund the preponderance of the DCFS program budget for social services and foster care, adoptions, and child welfare training. SSBG funds a relatively smaller portion of the program budget for purchased services costs.

III. FISCAL OPERATIONS OF THE ARKANSAS SSBG PROGRAM

A. Introduction

Federal funding is made available to states through SSBG which was established in October, 1981, and which continued the service program funding initially made available through Title XX of the Social Security Act, which was established in 1975.

At the outset of Title XX in 1975, the federal funding level was set at \$2.5 billion nationwide, available to states at a 75 percent rate with 25 percent matching required; an additional \$200 million nationwide was appropriated for day care programs, but without the matching requirement.

With the enacting of SSBG in 1981, the funding was combined into one allotment. The total of this federal funding has varied over the years of the program's operation.

For federal fiscal year 2018, Arkansas is anticipating an allotment of \$14,583,000.

Federal funding allotments to states are based on the federal fiscal year which is in effect from October 1 through September 30. The Arkansas SSBG program operates on the state fiscal year which runs from July 1 through June 30. This is done so that the program can be coordinated as closely as possible with the state budget cycle.

B. Planning Financial Data

Total funding for the Arkansas SSBG program is made up of funds from SSBG and state and local matching (donated and appropriated). The table below shows funding from each source and total estimated funding for state fiscal year 2018.

ESTIMATED SSBG FUNDING FOR ARKANSAS

For State Fiscal Year 2018

SSBG Program (Allotment and Carryforward)	15,381,546
State and Local Matching	1,894,363
	17,275,909 TOTAL

Based upon historical data, funding availability, and anticipated needs, the DHS

Director, Finance and Administration allocates funds to each program area within DHS and to ARS and Arkansas SCC. In turn, these agencies set funding levels for services, based upon historical usage, public input, anticipated needs, and available resources, upon other things.

SSBG funding is utilized to purchase services from public and private community programs throughout the state (**purchased services**) and to pay for the cost of services delivered by staff of agencies within the state, i.e., DHS, ARS, and Arkansas SCC (**direct services**). Some of the costs incurred by the state in administering the program (**administrative costs**) are also funded through SSBG.

- **DIRECT:** Direct program costs are those specifically identified with the delivery of a particular service or activity to achieve one of the five statutory goals of the SSBG program. Direct program costs also include technical assistance and management expenditures related directly to the provision of any of those services; they include activities with administrative qualities that support the provision of a particular SSBG service, not general administration of the grant. Direct program support for SSBG goals and service categories is provided by seven program divisions and two offices of DHS, as well as by ARS and Arkansas SCC.

NOTE: For Shared Services, Contract Support Section, a support office to the seven program divisions, those costs that are not administrative in nature are allocated to costs of services purchased by the program divisions. Direct activities for Shared Services may include meeting with service providers and clients, developing and reviewing contractual documents for the purchase of services, and relevant travel for these activities.

- **ADMINISTRATIVE:** Only DBHS, DSB, Shared Services, and DCFS utilize SSBG funding for administrative costs. Administrative costs are those associated with central executive functions that do not directly support the provision of a specific project or service within the scope of coverage of SSBG. Administrative costs are those which cannot be attributed to service recipients and are incurred for common objectives that benefit multiple programs. Activities considered administrative include cost of overall program planning, policy development, budgeting, funds management, reporting, personnel activity, generalized training, and office management.

No more than 9% of the total expenditures of federal funds will be dedicated to administrative costs.

Historical data maintained by DBHS and Shared Services regarding their time and activities support their allocation of costs between direct and administrative. The only administrative cost DCFS plans to fund with SSBG is the purchase of child abuse and neglect training for their staff.

DHS has elected to fund all other SSBG administrative expenditures from

other sources in order to have more SSBG funds available for the purchase or direct delivery of services. For those situations, only the costs funded by SSBG have been shown.

- 5.31% 6.45% Local funding
- 0.34% 0.22% Other funding
- 42.31% 40.43% Other Federal funding
- 100.00% Total Funding

E. Reporting

Arkansas has a reimbursement system that provides service delivery data to provide an accurate picture of service delivery patterns for the Arkansas SSBG program, which is instrumental in the planning process.

OFA prepares and compiles reports containing information about services delivered to clients and service expenditures. This Post-expenditure Report addresses expenditures by service, age range of recipients, and statutory goals.

F. Program Monitoring and Evaluation

Each DHS division and office is responsible for monitoring and evaluating (either directly or through contract) all services provided with its allocation of SSBG funds. This monitoring is crucial to determining the effectiveness of the SSBG-funded programs and, therefore, significant in future planning. Evaluations include on-site monitoring visits on a sampling basis.

The reviews are based on federal and state regulations, the contract agreement, licensing and certification standards, program criteria and guidelines, and social work practice. In addition to the monitoring and evaluation performed by the appropriate division or office, each contract provider is to utilize an internal monitoring and evaluation process. The monitoring component should insure that the services billed are delivered to eligible clients in accordance with the terms of the contract. The evaluation should indicate the degree of achievement attributable to the program in relation to stated program goals and objectives.

G. Other Funding for Services

DHS divisions and offices, as well as the two agencies which are not within DHS (ARS and SCC), utilize a variety of federal, state, and other funding along with SSBG funding in the programs for which they are responsible, to maximize service provision.

H. Cost Allocation

DHS Divisions/Offices: Costs are allocated to programs, including SSBG, in accordance with the DHS Cost Allocation Plan approved by the federal Department of Health and Human Services, Division of Cost Allocation. Expenditures are charged directly to the program(s) involved, through the Cost Center(s)/Internal Order(s) in which they incurred.

For ARS and SCC, similarly, expenditures are charged directly to the program(s) involved, through the cost Center(s)/Internal Order(s) in which they incurred.

SOCIAL SERVICES BLOCK GRANT PRE-EXPENDITURE REPORT**

IV. PROGRAM OPERATIONS OF THE ARKANSAS SSBG PROGRAM

A. Statutory Goals

Each service provided to an individual must be directed at one of the following statutory goals:

1. Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency
2. Achieving or maintaining self-sufficiency, including reduction or prevention of dependency
3. Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interest, or preserving, rehabilitating or reuniting families
4. Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care
5. Securing referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals in institutions

B. Eligibility Requirements

SSBG funded services are provided free of cost to those who are eligible.

In order to receive a service paid through SSBG funds, an individual must meet three basic requirements:

- The individual must need the service in order to attain or maintain one of the five statutory goals.
- The individual must be a legal resident of the State of Arkansas while receiving the service.
- The individual must meet the financial criteria peculiar to the service for which application is made.

The eligibility categories for financial criteria are defined as follows:

TEA/WORK PAYS: This category refers to recipients of TEA/WORK PAYS as well as essential persons and adult relatives whose needs were taken into account in determining the TEA/WORK PAYS grant.

SSI: This category refers to any aged, blind, or disabled individual receiving SSI benefits.

Income Eligible Recipients: This category refers to individuals whose income does not exceed the income levels shown below. Eligibility under this category is based on percentages of median income adjusted by family size. The income scale is based on the Estimated State Median Income for Federal Fiscal Year 1998 issued by the Administration for Children and Families, Department of Health and Human Services.

Without Regard to Income: This category refers to individuals for whom financial status is not considered.

Individuals receiving Protective Services for Adults or Protective Services for Children are eligible for SSBG services under this designation. When required by a protective service case plan, any service funded by SSBG and described in this Pre-expenditure Report may be provided without regard to income.

Services to DCFS clients may be provided without regard to income if they are needed as a result of a case plan for:

- family support/reunification,
- prevention or remedy of abuse, neglect or exploitation of children,
- crisis intervention with children and families, or
- helping adoptive and extended families at risk or in crisis.

Documentation supporting the use of this category for DCFS clients must be retained in the provider's case record.

Services to DDS clients that are needed as a result of a case plan for DDS may be provided without regard to income. The required documentation is an Individual Program Plan and DDS eligibility determination, which must be retained in the provider's case record.

Services by Special Olympics of Arkansas needed as a result of a determination of eligibility for Special Olympics services by an agency or a professional in any given local area may be provided without regard to income. The required documentation showing eligibility for Special Olympics services, legal Arkansas residency and need for service would be at the local level. These requirements would result in an exception to completing the DHS100 for the participants/guardians who would not have to complete the form.

Individuals who need services provided from ARS as a result of a case plan for services related to obtaining employment, independent living or supported employment. The documentation required to be retained in the client's record consists of the ARS Certification of Eligibility and the Individualized Plan for Employment, Independent Living or Supported Employment.

Status Eligible: This category can be used to establish eligibility for clients of DYS who fall into the priority target population of DYS. Youth in this category are eligible regardless of financial status; however, documentation must exist in the provider's case record that the youth is either a delinquent or family in need of services or at risk when referred by parent or guardian, law enforcement, mental health professional, or school.

Additional or substitute requirements to satisfy eligibility standards may only be established on an individual contract basis upon written approval by the DHS Chief Fiscal Officer or designee.

C. Application Process

Application for services may be made either by the applicant or the applicant's authorized representative in the office of a contract provider or in the DHS County office in the county in which the applicant resides.

D. Maximum Allowable Income

Under the direction of OFA, contract provider agencies generally assume responsibility for completion of application documents, determination of the client's residency and eligibility, and authorization for purchased services as appropriate.

Financial eligibility is determined on the basis of the applicants' statements (referred to as the Declaration Method). The staff shall inform the applicant that he or she has a right to a hearing if dissatisfied either with the handling of the application or the length of time between a favorable decision of eligibility and receipt of the service.

ARKANSAS DEPARTMENT OF HUMAN SERVICES
SOCIAL SERVICES BLOCK GRANT PRE-EMPENDITURE REPORT

CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies.
4. For grantees who are individuals, Alternate II applies.
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules.

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

ARKANSAS DEPARTMENT OF HUMAN SERVICES
SOCIAL SERVICES BLOCK GRANT PRE-EXPENDITURE REPORT

Conviction means a finding of guilt (including a plea of *nolo contendere*) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements
Alternate 1. (Grantees Other Than Individuals)

The grantee certifies that it will or will continue to provide a drug-free workplace by:

- (a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
- (b) Establishing an ongoing drug-free awareness program to inform employees about --
 - (1) The dangers of drug abuse in the workplace;
 - (2) The grantee's policy of maintaining a drug-free workplace;
 - (3) Any available drug counseling, rehabilitation, and employee assistance programs; and
 - (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;
- (c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);
- (d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will --
 - (1) Abide by the terms of the statement; and
 - (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;
- (e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other

designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant.

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

(B) The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Arkansas Department of Human Services
Contract Support Section
700 south Main Street
Little Rock, AR 72201 (Pulaski County)

Check if there are workplaces on file that are not identified here.

Alternate II. (Grantees Who Are Individuals)

- (a) The grantee certifies that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant;
- (b) If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, he or she will report the conviction, in writing, within 10 calendar days of the conviction, to every grant officer or other designee, unless the Federal agency designates a central point for the receipt of such notices. When notice is made to such a central point, it shall include the identification number(s) of each affected grant.

LEGISLATIVE JOINT AUDITING COMMITTEE ARKANSAS LEGISLATIVE AUDIT

Independent Auditor's Report

The Honorable Asa Hutchinson, Governor
and Members of the Legislative Joint Auditing Committee
State of Arkansas:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of Arkansas (the State), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of:

- The discretely presented component units, which represent 100% of the assets and revenues of the aggregate discretely presented component units opinion unit.
- The University of Arkansas for Medical Sciences, a portion of the Higher Education Fund, which represents 15% of the assets and 35% of the revenues of the business-type activities opinion unit and 18% of the assets and 50% of the revenues of the Higher Education major enterprise fund opinion unit.
- The Construction Assistance Revolving Loan Fund or the Other Revolving Loan Funds (non-major enterprise funds) which, on a combined basis, represent 7% of the assets and 1% of the revenues of the business-type activities opinion unit and 2% of the assets and 1% of the revenues of the aggregate remaining fund information opinion unit.

500 WOODLAND STREET, SUITE 172 • LITTLE ROCK, ARKANSAS 72201-1099 • PHONE: (501) 687-3600 • FAX: (501) 687-3605
WWW.AR.AUDIT.ORG

Those financial statements were audited by other auditors, whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for the aforementioned funds and entities, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the University of Arkansas Foundation, Inc. and the University of Arkansas Fayetteville Campus Foundation, Inc. (discretely presented component units) were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Arkansas, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 (b) to the financial statements, in fiscal year 2016 the State adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 72, *Fair Value Measurement and Application*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, listed in the accompanying table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Arkansas's basic financial statements. The combining financial statements, introductory section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining financial statements are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2016, on our consideration of the State of Arkansas's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. That report will be issued under separate cover in the *State of Arkansas Single Audit Report*. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report, upon its issuance, is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Arkansas's internal control over financial reporting and compliance.
