SHARON PRIEST SECRETARY OF STATE STATE OF ARKANSAS	
BA	

November 7, 1996

Tonya D. Springer Editor, *Arkansas Register* Office of Secretary of State 256 State Capitol Little Rock, Arkansas 72201-1094

RE: Arkansas Register Filing

Residential Care Facility (RCF) Methodology

(HSC Regulation 200M.A1)

Dear Tonya:

Attached please find two copies of the attached rule along with the *Arkansas Register* Transmittal Sheet.

Please let me know if you need anything else.

Many thanks!

Sincerely,

Nancy Richardson Dunlap Management Project Analyst

Attachment

HSC Regulation 200M.A1. Residential Care Facility (RCF) Methodology (As amended.)

Note: "No applicants will be approved for additional beds if the county in which the facility is located had at least a 10% increase in its licensed beds i.e. if the 10% increase was approved but unlicensed during the previous calendar year. This applies only to Utilization Based Need."

I. Residential Care. Definition.

All references to "Residential Care" and "Residential Care facilities" refer to facilities that meet the definition contained in Act 1238 of 1993, which states:

"(14) 'Residential care facility' means a building or structure which is used or maintained to provide, for pay on a twenty-four hour basis, a place of residence and board for three (3) or more individuals whose functional capabilities may have been impaired but do not require hospital or nursing home care on a daily basis but could require other assistance in activities of daily living."

Residential Care facilities also include:

- A. Group Homes
- B. Retirement Centers or
- C. Any other facility which meets the statutory definition regardless of licensure category or the existence of a licensure category.
- II. Service Area will be the county.
- III. Bed need will be determined by a Population Based methodology and a Utilization Based methodology.
 - A. Population Based
 - 1. Numerical Formula. At 90% optimum occupancy the

RCF Methodology 200M.A1

following number of RCF beds are projected by Age group:

Age Group	Beds per 1000
Under 65	.5545
65-74	2.3014
75-84	5.1090
85+	17.4996

Bed need will be projected five years forward each July 1st, e.g.. in 1995 bed need will be projected for the year 2000.

- 2. Review Priorities. Applicants will be approved in the following ranked order:
 - a. Applicants with high occupancy will have a
 priority for an increase of 10% or 10 beds
 whichever is greater. (For definition of "high"
 see "B. Utilization Based" below.)
 - b. Applicants replacing "older" facilities will havea priority for a 20% increase.
 - c. Applicants wanting to expand will have a priority for an increase of 5% or five beds whichever is greater.

The above priorities may not be combined i.e. an older facility with "high" occupancy will be eligible for either a 10% or a ten bed increase or a 20% increase but not both.

No additional beds will be approved for a county showing a need under the Population Based Methodology where:

(1) there is a valid POA for the first RCF in

- the county which has yet to be licensed; or

 (2) if the county has had its first and only

 RCF licensed within the last calendar

 year. After the initial RCF has been

 licensed for six months, the Commission

 will review the situation and determine if

 additional beds will be approved for the

 county; or
- (3) the existing facilities in the county are operating at an average occupancy rate of less than 80.0% for the previous calendar year.
- 3. The Commission may exceed "need", when a need exists and is less than ten (10) beds in order to approve one applicant for up to a ten (10) bed facility.
- B. Utilization Based.

This methodology would apply in those service areas where a Population Based Need is not projected. Beds may be approved if a facility has had a "high" occupancy for the previous calendar year. "High" occupancy shall be at least an average of 85% for facilities of ten beds or less, 90% for facilities of 20 beds or less and 95% for facilities over 20 beds. Proof of occupancy is the applicant's responsibility and may be based upon either resident occupancy or "reimbursed" occupancy.

Eligible applicants may be approved for a ten bed increase.

C. Size

While there is no minimum or maximum size, the suggested

RCF Methodology 200M.A1

minimum size for new construction is 40 beds. Applicants proposing less will be held to a higher level of justification under the "Financial Feasibility" criterion. (See "Criteria" listed in the Commission's Policies and Procedures.)

D. Unfavorable Review

No application for additional beds will be approved for any residential care facility found out of compliance by the Office of Long Term Care in the following areas in its last two annual surveys:

- 1. Residents Rights
- 2. Quality of Care
- 3. Abuse and neglect of residents
