

Arkansas Department of Community Correction
Summary of Substantive Changes to
AR 7.8 Transitional Housing Program

This revision specifies that the Department of Community Correction Director is the authority for licensing transitional housing programs. A new provision allows the Director to issue a license without a fee when the Director accepts accreditation or approval by another appropriate oversight organization. The licensure requirements were revised, primarily to clarify the requirements of the above provision and to provide additional direction to staff concerning releases under the program. Act 679 of 2005
