

RULE:

The State Board of Career Education is recommending fees for GED® Testing in the amount of \$16 for the official GED® test for the calendar year January 1, 2014 to December 31, 2014. The GED Testing Service has developed a new GED® Test costing \$120 which includes \$80 for the test and \$40 for test delivery. The test is aligned with current high school common-core state standards and career and college readiness expectations. The test-taker will provide \$16 of the \$120 testing fee and the Department of Career Education will provide funding for the remainder. The test will be delivered on computer as well as provide same-day scoring on the four parts including the new score report for reporting and remediation.
