RULE C-3: RESERVOIR SURVEYS

~~By special order of the Commission periodical surveys of the reservoirs containing oil and gas in the state will be made. These surveys will be thorough and complete and shall be under the supervision of the petroleum and natural gas engineers of the Commission. The surveys shall be an investigation into the condition of the reservoirs containing oil and gas and an investigation into the practices and methods employed in obtaining oil and gas from the reservoir. These surveys and investigations shall specifically include the volume and source of crude oil and natural gas; the reservoir pressure of the reservoir as an average; the area of the regional or differential pressure; stabilized gas-oil ratios and the producing characteristics of the field as a whole and the individual wells within the field.~~
