Summary of proposed Arkansas State Plant Board rule for Reciprocity and Temporary Licensure

Purpose:

The purpose of this rule is to comply with laws passed during the 2019 legislative session.

Background:

The Arkansas State Plant Board (Board) met on December 3, 2019 to consider this new rule in response to laws passed during the 2019 session which require rules for reciprocity and temporary licensure.

Key Points:

- Act 1011 of 2019 requires occupational licensing entities to promulgate rules providing for reciprocity and temporary licensure
- One rule is being proposed to cover multiple occupational licenses issued by the Board.

Discussion:

The new rule is based on a model rule drafted by the Attorney General's office. The reciprocity and temporary licensure provisions allow individuals holding similar licenses in other states to practice in this state while their credentials are being vetted to see if they hold a substantially equivalent occupational license in good standing in another state, territory, or district of the United States. The Board issues multiple occupational licenses. Proposing multiple rules, one for each of the occupational licenses issued by the Board, could be cumbersome, time-consuming, and inefficient. Instead, the Board is proposing a rule which will contain the reciprocity and temporary licensure provisions in one document for each occupational license it issues.

Act 820 of 2019 provides for occupational licensing entities to promulgate a rule regarding portability of licenses for military members and spouses. However, the Act also states that if no rule is adopted under this Act, automatic licensure will be provided for military members and spouses covered by the Act. The Board will proceed under the automatic licensure provisions of Act 820. Therefore, the proposed rule does not specifically address military members and spouses.
